(21) Application No.201911038413 A

(19) INDIA

(22) Date of filing of Application :23/09/2019

(43) Publication Date : 27/09/2019

(54) Title of the invention : METHOD FOR MINIMIZING POWER CONSUMPTION OF IOT BATTERY USING PACKET FILTRATION APPROACH

(51) International classification :H04L41/0233
(31) Priority Document No :NA
(32) Priority Date :NA
(33) Name of priority country :NA
(86) International Application No :NA
Filing Date :NA
(87) International Publication No : NA
(61) Patent of Addition to Application Number :NA
Filing Date :NA
(62) Divisional to Application Number :NA
Filing Date :NA

(71)Name of Applicant :

1)Dr.M.Joseph Auxilius Jude

Address of Applicant :Assistant Professor (Senior Grade),
Department of Electronics and Communication Engineering,
Kongu Engineering College, Perundurai, Erode, Tamil Nadu,
India - 638 060. Tamil Nadu India

(57) Abstract :

The present invention relates to method for energy management for the battery of an Internet of Things Sensor associated with an Internet of Things system. The disclosure present a novel packet filtration approach to minimize transmission of redundant packets and energy consumption of the processor and transceiver modules, which in turn extend the sensor device battery life for a longer duration.
