The Feed Forward Technologies Pvt Ltd. Providing Convin Service. India. Amazon Web Services, Inc. Amazon SES. USA. Convin is a Contact Center software that leverages AI to improve customer interactions. By utilizing conversation intelligence, companies with high volume calls can automate 100% call QA, uncover business-driving behaviors & actions, and auto-create personalized coaching instances. Moreover, we aim to eliminate human dependency and proactively address all call center challenges. Convin is a Bengaluru-based company founded by four IIT Delhi alumni distressed by the lack of use of client conversation data. Our company has since helped global companies across verticals improve contact center processes with its platform capabilities.

**S. CHANDRU**

APIWIZ was founded to address the pervasive issues API teams were facing, with a mission to help enterprises manage the API landscape at scale with a low code APIOps platform. Drawing from their combined 30 years of experience in engineering, sales, and working with Fortune 100 companies on greenfield API projects, its founders realized there was an opportunity to develop a platform that could go beyond simply selecting from existing software and provide businesses in the API economy with total power over their strategy towards managing and profiting from APIs, all within one unified platform. With this vision of “One place, one solution, one view” at its core, APIWIZ promises unrivaled control for any organization leveraging its platform capability.
