Experimental Farm has been providing facilities for field experiments and pot culture trials for postgraduate students and research scholars of Faculty of Agriculture. About 50 field trials were laid out in the Experimental Farm catering to the research requirements of post-graduate students in Agriculture.

Total cropped area in the Experimental Farm was 30 hectares. Paddy was cultivated in about 20 hectares in three different seasons viz. Kuruvai, Samba and Navarai.

Many promising and latest paddy cultivars such as ADT 43, BPT, Swarnadon, AU3, AU4, AU5 etc were grown. Many rice hybrids and saline tolerant rice cultures were field tested for their suitability.

Many new varieties of millets, oilseeds, pulses, cotton and sugarcane were cultivated in about 4.0 hectares to cater to teaching and research needs of students and Research Scholars

Latest techniques in crop cultivation were demonstrated to the farmers who visited during "Farmer's day" celebrations. Good quality paddy seeds were supplied to the State

Department of Agriculture, Government of Tamil Nadu and also the farmers in and around Chidambaram.

Total area of Sewage Farm is 8 hectares and net area under water grass is 5.9 hectares. An area of 2 acres was reclaimed and guinea grass, water grass and cumbu nappies grass were grown in the year 2006.

94th Indian Science Congress was conducted at Annamalai University under the dynamic leadership of respected Vice-Chancellor, the staff of Department of Agronomy was drafted for stage and halls arrangement on the above occasion. Dr.G.Kuppuswamy was nominated as Convenor for the Stage & Halls arrangement Committee. The following were nominated as members of the above committees
